ville's Excellent Hotel.

The T. P. A. News Letter, official organ of the Travelers Protective Association of America, published at St. Louis, in its issue of April 15th, has this to say of Maysville's newly equipped hotel:

"It is truly refreshing to be permitted to be a guest of Manager Daugherty of the New Central Hotel in Maysville, Ky. No more genial host is to be found in this state-ever watchful of the comfort of his guests. The hotel has recently been refurnished throughout. New beds, new carpets in all rooms for traveling men. One who finds fault in his dining-room is indeed hard to please, and kicks from force of babit. His coffee is par excellence. His steaks are picked ones. His dinners are as good as can be had at any firstclass large city hotel. His new writing room has in it now eight new cloth-covered tables, and is covered with a tasty new Brussels carpet. The office chairs are similar to those used in the Fifth Avenue Hotel, New York. In fact all has been done that the most critical and fastidious traveling man can ask ten drops to a teaspoonful. It acts directly for his comfort and convenience, and he only on the blood and mucous surfaces of the sys asks \$2 per day. Surely Brother Daugherty tem. They offer one hundred dollars for any has earned the thanks and best wishes of the traveling men of Kentucky. We wish him all the good luck he can stand. His clerks are

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Chency & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from case it falls to cure. Send for circulars and testimonials. Address,

River rising at Pittsburgh, but falling here The Keystone State passed up last night for Pittsburgh.

The Queen City from Pittsburgh will pars lown tonight. The Henry M. Stanley passed up last night

for Kanawha river. J. D. Taylor and Hon. C. R. Melcher of Madison, Ind., were at Cincinnati looking at the ferry-boat Onelda, with a view to buying her to use as an auxiliary boat in the ferry service at Madison. The Oneida is now in fair shape, as her bull was practically rebuilt

about a year ago. The boat being built for the Pittsburgh Transportation Company will be larger than the Joseph B. Williams. The impression has got abroad that it would be smaller. The steamer will be 210 feet long, the same length as the Williams, and will be 42 feet wide, two feet wider than the Williams. The boat will have compound machinery, and her small cylinders will be 21 inches in diameter and the large ones 44 inches, with a 9-foot stroke. The small cylinders of the Williams are 19 inches and the large ones 44 inches, with a 9-foot stroke. The boat is progressing rapidly at

the Elizabeth Marine Ways. Captain George W. Edgington, the Augusta steamboat man, who bought the old steamer Falls City from the Cincinnati Marine Ways Co., was in consultation with United States Steamboat Inspectors Fearn and Dameron regarding rebuilding the Fails City. He now has the old steamer beached at Augusta, and cylinder timbers and tear away her texas. The boat's machinery is good. Captain Edgington has about closed a deal with the Burgess Steel and Iron Company of Portsmouth, O., for a battery of two new two-flue steel his boat finished in time for the coming low water season. He expects to have her come out drawing not more than 22 inches, Captain Edgington is the owner of the steamer
